SCHUNK Robot Accessories Roadshow

Experience End-of-Arm Competence live.

Peak Performance in the Team

When it comes to clamping technology and gripping systems, SCHUNK is the world's No. 1 – from the smallest parallel gripper to the largest chuck jaw program. We recognize and develop standards with a large potential for the future, which will drive the rapid progress in many industries. That is why we can be found in more than 50 countries across five continents, with our own subsidiaries and distribution partners.

In our innovative family-owned company, our customers benefit from the expert knowledge, experience and team spirit of more than 2,000 employees.
